New! Nitro Brew Coffee Systems

We can offer a variety of solutions to service this emerging and fast-growing sector of the High Street Coffee Shop sector that is already widely established in the USA.

Equipment can be used to create an innovative list of Nitro Brew “**Cofftails**” which mix Nitro Brew coffee with a variety of flavourings and syrups to create a mouth-watering variety of Cold Coffee “**Cofftails**”.

In addition, the same equipment can be used to make coffee-based cocktails in a fraction of the time and at a fraction of the cost of traditional cocktail making methods.

Benefits

- ☆ Additional source of **high margin revenue** for Hospitality venues.
- ☆ Equipment payback achieved after sales of < 6 cases of product (when used in cocktails).
- ☆ Break-even threshold < 1 unit/day for leased equipment (when used to dispense cocktails).
- ☆ Nitro Infused Coffee, “**Cofftails**” and Coffee based cocktails dispensed from a single machine.

Bulk Brew Coffee Solutions

For Function & Event Catering

We offer solutions for the supply of fresh coffee for major event and function catering to the Hotel and Hospitality sectors.

Our solution enables fresh coffee to be constantly brewed on demand to service large events in hotels and event venues etc, typically the largest 3-phase version of the machine can deliver **1.5 Litres** of coffee **every 15 seconds** (every 20 seconds for the single phase version) and with no recovery time required on the machine boiler the supply of coffee to waiting staff is continuous.

The equipment assures that a quality product is delivered constantly to customers and ingredient wastage reduced to minimum levels.

Machine	Power	No. of cups per hour
Excel 846	3kW power supply	250 cups per hour
Excel 846	9kW power supply	750 cups per hour
Excel 846	18kW power supply	1500 cups per hour

Benefits

- ☆ Fresh Coffee delivered **instantly** for large scale functions and events.
- ☆ Vast **improvement in quality** over current urn based bulk brew systems.
- ☆ **Reduction in wastage costs** caused by over supply or product degradation.
